

Dear County Council Members:

I write to you with my concerns about proposed amendment to the OZAH Rules of Procedure. Public participation to the greatest extent possible is crucial to the Council's decisions. Surely it is our democratic right to express opposition to any application. We believe ALL opposition testimony should be fairly heard and thus cutting short time of individuals to present his/her perspective is of deep concern and should not be allowed to pass, especially without a public hearing.

Sincerely,

Anne James, Board Member Friends of Ten Mile Creek
Member Friends of Black Hill
